

Chore Chart

Printables

This printable is made to create two charts.

Cut out and laminate these circles from page 1. Cut page 2 in half vertically, and add your child's names to the top of the charts before laminating.

Put a piece of adhesive velcro on the back of each job circle and inside each blue circle on the charts.

Place one set of jobs on the "To Do" side of the chart each morning or evening before bed.

As the kids complete each task, they move the circles to the "Done" side of the chart.

Start over again each morning.
